**DETAILED ACTION**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 27, drawn to a method for determining a mask-fit test pressure, wherein the mask-fit pressure is adaptively determined from prior use, classified in class 128, subclass 204.23.
  - II. Claim 28, drawn to a method for determining a mask-fit pressure in a CPAP apparatus having an automatic titration mode, classified in class 128, subclass 204.22.
  - III. Claim 29-56, drawn to method for determining a mask-fit test pressure by determining a percentile pressure of a previous ventilatory assistance session to be the test pressure, classified in class 128, subclass 204.18.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Paul Bowen on 6/11/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Please also note that the Examiner pointed out to Mr. Bowen that claims 2-14 are dependent on canceled claim 1 as set forth by the Preliminary Amendment filed on 1/4/02. Mr. Bowen clarified that claims 2-26 should have been canceled. The Examiner would appreciate it if in the next communication, the cancellation of claims 2-26 is clearly set forth on the record.
